Mnnlr Private Limited, 03/2024 - present

- Built a responsive e-commerce platform utilizing **MongoDB, NodeJS (Express), ReactJS, Tailwind, and Material UI**, ensuring seamless performance and an engaging user experience across all devices.
- Implemented robust security measures with secure user authentication and integrated a reliable payment gateway, providing a safe and smooth transaction process for users.
- Developed a fully authenticated system with comprehensive login and sign-up functionalities, efficient payment processing, and an intuitive order management system to enhance the overall

Technical Skills

- Programming:** C++,Data Structure and Algorithms,OOPS,JavaScript(ES6)
- Front-End:** HTML5, CSS3, React.Js, Context API, Tailwind,Material-UI,Chara-UI .
- Backend:** NodeJS, ExpressJS, MongoDB,API ExpressJS,Postman, REST API .
- Other Tools:** Git & GitHub,Render,Vercel, VS Code, WinDows, NPM .

Achievement

- Solved 350+ Problems on **GeeksforGeeks**
- Solved 300+ Problems on **LeetCode**
- 4 star on HackerRank
- 10th topper of school

Education

- B.Tech Information Technology** Rajkiya Engineering College Bijnor 2020-2024
- Intermediate** S N D I C VN Labnia Tamkuhi Kushinagar 2017-2018

Online Courses & Certifications

- Full Stack Web Development - Coding Ninjas
- Data Structures and Algorithms - Coding Ninjas
